

The 9th District's Principled Stance in Opposition to S-2537/A-4106

"Our Delegation stands unalterably opposed to and will vote against S-2537 and A-4106 which seek to undermine existing occupancy regulations for age 55+ communities. Residents value their communities' autonomy, including the ability to enforce age-restriction residency requirements and rightfully believe that Trenton has more important issues to focus on, such as reducing taxes and limiting government."

- Connors, Rumpf, and Gove

**Senator
CHRIS CONNORS**

**Assemblyman
BRIAN RUMPF**

**Assemblywoman
DIANNE GOVE**

Trenton needs to Stay Out of our Senior Communities.

Trenton Has No Right to force Senior Communities to "Conform."
Senior Communities don't want or need Trenton Oversight.

Trenton has far More Important Issues to address.

Sign the PETITION in OPPOSITION to S-2537/A4106 which would prohibit 55 and older communities from refusing to sell units to buyers who are under the age of 55. It would also force 55 and older communities to allow up to 20 percent of the units to be occupied by residents who are under the age of 55. This unnecessary interference from Trenton will hinder the ability of these communities to determine for themselves who may live in or own units within their developments.
