

This Message is from your Board of Trustees,
Due to the violent storm last evening and loss of power to much of the community The office and clubhouse will be closed for business today.

Please use caution when making your way around the community and there are many fallen branches and sticks about.

Also there is a downed lamp post on Morning Glory lane by the Multi Game court, please stay clear of that taped off area until the repair is completed.

Turf Masters will be cleaning all storm Drains on Wed Dec 20th , The Board had decided to approve an emergency cleanup of the community after last evenings storm . Starting today small branches and twigs may be brought to the curb in neat piles for a pickup by Turf masters in the near future, which may be after the Holidays . We will advise residents of the pickup date when it is confirmed by Turf Masters.

Also It may be a good Idea for residents to do a walk around inspection of your Roof and siding to inspect for damage from the storm and report to your insurance carrier if found.

Finally as it is trash day please make sure your trash bags and cans have not blown into the road during the storm , if so please retrieve them and place them back in cans.

As always, thank you for your patience.
